And What Have You

By BOB CRAIG

Since our comments in this column two weeks ago in regard to the request by the Grand Jury for an investigation into the possibility of our law enforcement officers being curtailed in their efforts to enforce the law, I have received a number of expressions of favor and at the same time a few who disagreed with me.

Since that time I have been assured by some of the members of the council that we do not have a problem here and the whole matter has gotten out of hand. I certainly hope that this is the case.

It may well be that I have caused some unjust criticism of the members on the city council and if this is the case then I apologize to each of them.

I suspect that the whole problem boils down to the question of how much law enforcement does the public want? And this is not an easy question to answer. I for one, believe that the laws are passed for our own protection and should be enforced with the chips falling where they may, but at the same time I have many friends who believe that we should be selective in enforcing minor traffic laws.

I for one have no idea as to what the Grand Jury investigation will come up with or even if there will be one. But I do know that if they find anything wrong it should not be laid at the feet of the individual councilmen but should be borne by the citizens as a whole. The councilmen are good, honest citizens trying to serve their community with the best of their ability and for this they need our support. If we have a problem, and I hope we don't, it is our problem not just theirs.

Because of our convictions in regard to law enforcement I feel that we do have a problem here, but it is probably not the one brought up by the Grand Jury. It is one created by this question of how much law enforcement do we want and this is a problem everywhere, especially in the smaller towns where every one knows everyone else.

It is not a new problem as it has been around a long time and will likely be with us for a long time to come. The problem is one made up of small things such as letting our kids drive before they are old enough to have a license, driving too fast on our city streets, failing to stop for stop signs, etc.

Maybe I am wrong in taking this attitude I take in regard to the enforcement of these so called minor laws but I feel that there are at least three good reasons for this conviction.

One is that we will never stop the needless deaths on our streets and highways until the public is forced to obey the law or pay the consequences.

The second is that I find it hard to listen to people complain about civil rights, hippies, and young people breaking laws because they do not believe in them, while at the same time the people doing the complaining are breaking other laws themselves.

The third reason is one that brings in the modern matter of generation gap and the establishment. How can you let a kid drive before he is of legal age and see his parents and friends break traffic laws and expect him or her to show proper respect for law and order when he gets older. While as an adult you may be able to know the difference between the apparently unimportant laws and the more serious ones but can your youngsters?

While I cannot prove it, I suspect that this attitude on the part of the parents is what is creating our drug problem today. The kids do not feel that our drug laws are right or fair and therefore they feel just because drugs are against the law this is not a good enough reason to leave them alone.

By Outgoing President—

More Workers Sought To Help Build Hamlin

Mickey Nunley, speaker for the Hamlin Board of Community Development Banquet, pulled a switch here Friday evening as he talked on patriotism instead of industrial development as expected. But the speaker tied the two topics together before he reached the conclusion.

Barry Moore, outgoing president of the Hamlin BCD, introduced the officers for 1971 and gave a brief president's report on the BCD. In his report Moore pointed out to the audience that Hamlin is a growing community that faces problems like all communities and urged those present to "correct what we can correct." He noted that we have

people that care about their town, but we need more workers — not just suggestions. He urged those present to stand behind those working to help build our community.

Moore noted that one of the main problems facing Hamlin is that "we do not have adequate funds to do the things we need to do. But, he added, "it is time for us to do what we can instead of waiting for someone else to do something."

New officers introduced were Jack Willingham, first vice president; Raymond Scifres, second vice president; and Donald Young, treasurer. Incoming president John Scarborough was unable to attend the banquet.

Willingham presented Moore a plaque in appreciation of his work.

In making his switch in topics, Nunley told the audience that one of his favorite topics is industrial development, but he said that another subject he is concerned with is patriotism and what's happening in the United States today.

Nunley said he is disgusted with recent events as the Kent State incident and with people such as Angela Davis, the black University of California at Los Angeles professor who was fired for being a professed communist. "I'm looking toward the day when we say we've had it with the Angela Davises and the likes of Kent State and the ones who will spit at and burn the flag," he said.

Nunley said to him patriotism is "an inner conviction that prompts us to stand up and say I am an American."

But Nunley also noted that, "patriotism can be killed by those who neglect it as well as by those who attack it."

He told the audience that small towns are being phased out and said that "if we in West Texas don't make a move, there won't be any place left under 10,000 to 12,000 where you can raise a family."

One of the things that most concerned Nunley, he said, is "the lack of leadership in communities. Every community I know of in West Texas needs leadership . . . and goals."

"Wouldn't it be great to join hands and work together?" he asked, but then said, there are "some in every community who will not lift a finger, but will try to tell you what you are doing wrong."

He concluded with the statement that, "if you are not part of the solution, you are part of the problem."

Outgoing officers of the BCD who were introduced at the banquet included Moore, president; John Scarborough, first vice president; Charles Hilburn, second vice president; and Cliff Reynolds Jr., treasurer.

The Rev. Howard Jones, pastor of First Baptist Church, served as master of ceremonies and introduced the out of town visitors from Aspermont, Anson, Washington, D. C., Stamford, McCauley, Sylvester and Abilene.

Decorations for the banquet held in the high school cafeteria were furnished by the Hamlin Garden Club.

Organ dinner music was provided by Mayhall Music Co.

Trustees Unopposed—

Seven Candidates In Race For Places On City Council

One more candidate got into the race for City Council before the deadline closed last Wednesday, Mar. 3, and one withdrew making a total of seven seeking the three places on the council. The two candidates for re-election to the Board of Trustees of the Hamlin Independent School District remained unopposed.

The new candidate for City Council, filling Wednesday was Guy Wilder and the candidate withdrawing from the race was Clarence Fisher.

Those seeking election to the City Council are A. E. (Buddy) Killion and George Campbell, both seeking re-election; Marvin Kirkland, Robert Fowler, J. C. Farmer, Muri Don (Skipper) Smith, and Wilder.

Seeking re-election to the school board are Jackie Williams and Raymond Scifres.

In a letter to the editor, Fisher wrote, "I will take this opportunity to make a public announcement that I am now withdrawing from the race for two reasons: 1. By virtue of a one-dollar a year salary, I am an employee of the city; thusly, I am ineligible. 2. I believe that more can be done for our small community through other endeavors."

The one-dollar a year salary referred to in Fisher's letter is that of airport manager.

Council Meeting Re-set for Friday

Mayor Hollis Madden has announced that the regularly scheduled City Council meeting has been changed from Monday to Friday, Mar. 19, at 7:30 p. m.

The Council usually meets on the third Monday evening of each month. The meeting was re-set because several of the council members had to be out of town Monday evening.

Father-Daughter Banquet Saturday

The annual Father-Daughter Banquet sponsored by the Camp Fire and Blue Birds girls will be held at 7:30 Saturday evening in the high school cafeteria.

Jimmy Spalding is president of the Hamlin Camp Fire Council.

Film Presentation—

B&PW Club Members Urged To Help Clean Up Hamlin

Jerry Smith and Ellis West, members of the community action committee of the Board of Community Development, presented colored slides to members of the Hamlin Business and Professional Women's Club showing the scenes in and around Hamlin.

The presentation pointed out how Hamlin looks to the visitor, the prospective citizen and the potential investor.

While showing the slides, the men pointed out the problem of abandoned cars, high grass and weeds, heavy mesquite infestation, and other fire, health and safety hazards.

They said, "We do not know the answer to the problem but it is the hope of the committee that we can interest citizens in cleaning up our town."

They asked the help of the

B & PW Club members as a group and as individuals to do what they could to create more interest in making Hamlin a more attractive community. They commended their recent project of decorating a window in a vacant building downtown.

Also presented were scenes showing the new airport, remodeled buildings, major industries and other assets of the town. Several buildings which are now vacant but could possibly be used for prospective industry were shown.

The meeting, a covered dish dinner, was held in the home of Mrs. Luther Haught. Assisting her were Mrs. Audrey Hodnett, Mrs. E. W. Uecker and Mrs. Kenneth Riddle, members of the program committee.

Mrs. Earl Brown, president, presided and introduced

guests which included Mrs. Donald Young, Mrs. Joe Hudspeth, Mrs. Horace Driver, Mrs. Webb of McCaulley and Mrs. Bob Craig.

Sister More presents one of
the most interesting and
thought provoking programs
on agriculture and it's many
problems, that has ever been
delivered anywhere by any-
one. The fact that she has
been asked to address farm
groups in 27 states and four
Canadian Provinces in the
past few years, speaks will
of her acceptability by rural
people everywhere.

"We feel most fortunate
that Sister More's schedule
has permitted her to be with
us for our Annual Meeting.
We hope that every member
of SEC will make every ef-
fort to attend this year's
meeting. We also wish to em-
phasize that friends of S-

America the Beautiful...

From the time that Columbus dis-
covered America... men have
thought of this country as some-
thing special. It was here that
Ponce de Leon sought the Foun-
tain of Youth, and men have long
admired America's majestic
mountains and beautiful valleys.
However, the real beauty lies not
in the land, but in the people. The
people came... seeking a land
where they could worship God in
freedom, and under God devel-
oped a kind and loving spirit. This
is what makes America beautiful.

Attend church regularly... help
keep America beautiful.

The Church is God's appointed agency in this world for spreading the knowledge of His love
for man and of His demand for man to respond to that love by loving his neighbor. Without
this grounding in the love of God, no government or society or way of life will long
persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even
from a selfish point of view, one should support the Church for the sake of the welfare
of himself and his family. Beyond that, however, every person should uphold and partici-
pate in the Church because it tells the truth about man's life, death and destiny, the
truth which alone will set him free to live as a child of God.

The official population of the state was 11,196,730, up 16.9 percent from the 1960 population count, which was 9,579,677.

The 1970 census counted 15,124 white persons in Jones County, 93.9 percent of the total; 923 negroes, and 59 persons of other races. In 1960, 94.2 percent of the population was white.

The census showed 1,102 children under 5 years; 3,791 in ages 5 through 17; 8,335 people 18 through 64; and 2,878 who were 65 and older. The population 14 years and over included 8,521 married people, 1,381 who were widowed, 275 divorced, and 2,286

including 1,189 one-person households. In addition 236 persons were living in group quarters.

The 1970 census counted County, 4,183 of them occupied 6,673 housing units in Jones

LETTERS TO EDITOR

Writer Withdraws From Council Race

To the Editor of the Hamlin Herald:

It is public knowledge that a few days ago, I filed for a seat in the upcoming election for City Councilman. I will take this opportunity to make a public announcement that I am now withdrawing from the race for two reasons:

1. By virtue of a one-dol-

lar a year salary, I am an employee of the city; thusly, I am ineligible.

2. I believe that more can be done for our small community through other endeavors.

The first endeavor being taken in context from the editorial in the Hamlin Herald — (quote) "It is important that the people elected to represent you know that you support them in their efforts to make Hamlin a better place to live." (unquote)

I think that the U. S. citizens' right to dissent has been wholeheartedly abused. Why don't we, as citizens of Hamlin, start a new trend; that of support. One of the reasons that we are a small community is that we seem to think small. The people that we have, and will elect as councilmen are the very essence and backbone of our small community. They are the ones who attend monthly and sometimes bimonthly meetings, meet on the street with our local citizens, spend hours on the phone with them listening to their problems and sometimes trivial complaints, then making the decisions which will be right for our city.

They have little money, and even less support from us as citizens of the community than does a city with ten times the tax revenues. We leave to them the responsibilities of providing city facilities; i.e., sewers, maintenance, growth and development, police protection, and many others. We place the burden on them of hiring these people to administer and carry out these civic duties. If the councilmen have the right to hire these people, can we, as citizens, refuse them the right to direct and fire these same city employees? I think not.

Our present greatest controversy would seem to pertain to law and order. I maintain that if the law is enforced TO THE LETTER, then you and I are in violation of it at least once a day. I personally would like worthy items originating from to see publications and news-Hamlin referring to us as a progressive, forward-looking, growing young city, rather than the too frequent publicity of our police department. It would seem that EACH time a reference is made to our local radio or t. v. sta-

tions, it refers to our police force rather than our future farmers, our new high school, our Board of Community Development, our small (and dying) industries, or to a citizen of outstanding merit. I personally do not think that this is the proper kind of advertisement for a community of our size. We do not need it.

In summation, let's vote. And after the votes are counted, let EACH voter support the elected. Just as I am ineligible as a city employee to supervise and run our city, so are ALL other city employees bound by the same rules, laws, and decisions handed down by our elected officials. These city employees are employees by monetary compensation. If they cannot or will not comply, then let's find some who will.

Missionaries From New Guinea Due

Rev. and Mrs. Wallace White, missionaries to the Island of New Guinea, will be in the Hamlin Church of the Nazarene Saturday at 7:30 p.m. Everyone in the community is given a special invitation to attend, says the pastor, Rev. Marshall Stewart.

Rev. White has been field superintendent of the expanding Nazarene work in New Guinea for eight years. He oversees all the organized churches as well as giving supervision to the hospital, clinical, and school work in the island. He and his family are stationed at the Nazarene headquarters in Kudjip.

Rev. White's appeal will have a special emphasis on the youth, Rev. Stewart said, and he will show slides of the work on his field.

Churches from Rotan, Snyder, Abilene, Sweetwater and Buffalo Gap are expected to participate in the missionary service.

A salad and dessert supper will be held at 5:30 p.m. Everyone is invited to bring a salad and dessert and join the congregation at the supper in Fellowship Hall.

Area Invited to Attend McMurtry Inauguration

ABILENE — Friends of McMurtry College in the Abilene area are invited to attend the inauguration of Dr. Thomas K. Kim as the college's eighth president, says Dr. Norton Jones, faculty chairman of arrangements.

Dr. Kim will be formally inaugurated at 10:30 a.m. on Saturday, March 13, in the new Civic Center Auditorium in downtown Abilene. This will be the climax of a slate of events beginning with dedication of McMurtry's newest building Friday.

The brand new Amy Graves Ryan Fine Arts Center will be dedicated in a ceremony at 3 p.m. March 12 just outside the new \$1 million-plus structure on the southeast corner of McMurtry campus. The dedication of the Arts Center on Friday will also be followed by a reception inside the building honoring the Ryan family.

Another event of the weekend will be first official public performance in the Arts Center Recital Hall at 8 p.m. Friday, March 12. Pianists Dale Dublin Prothro and Aurora Sterling Bolin, both of Wichita Falls, will play.

Of all the dignitaries and famous personages present, Dr. Thomas Kim will probably be most interested in three Californians flying in from San Francisco.

They are his three surviving brothers: Dr. Lawrence K. Kim, a San Francisco surgeon; Hugh K. Kim, an employee of American Airlines in San Francisco; Dr. Kenneth K. Kim, a captain in the U. S. Army Medical Corps.

The McMurtry president's family were taken from their home by North Korean invaders during the turmoil in their land in the 1950's. They were never traced and are presumed dead.

In the public eye other luminaries will naturally draw more attention.

Sen. John Tower and Rep. Omar Burleson will be on hand from the United States Congress. Eldon Mahon, United States Attorney for the Northern of Texas, will be here.

State Senator David Ratliff of Stamford, Rep. Grant Jones and Rep. Frank Calhoun, both of Abilene, and Rep. Delwin Jones of Lubbock, will be present from the Texas Legislature.

Among the many dignitaries

ies of the United Methodist Church will be Bishop Alsie Carlton of the Northwest Texas and New Mexico Conferences and Bishop Kenneth Pope of the Fort Worth-Dallas area.

Pallbearers were Hub Holland, W. L. McDonald, Irby Weaver, T. T. Bingham, Sam Hodges and Audrey Hodnett.

Mr. and Mrs. Ronald Fleckenstein of Denton spent the weekend with his parents, Mr. and Mrs. Joe Fleckenstein.

Atty. Gen. Crawford Martin held that the Department of Mental Health and Mental Retardation can move household goods of present employees (not new employees) to permanent duty stations in its own vehicles.

Neinda Philosopher Comes Up With Program To Put Nearly Everything On A Paying Basis

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has some far-out ideas this week, but that's his responsibility, not ours.

Dear editor:

As I understand the plan to reorganize the postal system, according to an article I read last night in a newspaper somebody mailed me a couple of weeks ago and I received yesterday, the idea behind the move is to put the

post office department on a paying basis, managed by a commission of business experts.

They're going to cut out wasted effort and antiquated methods, mechanized and streamline the system, raise the rates right and left, and generally operate the thing like it was any other business designed to pay its own way.

I got to thinking about this and I guess it's all right, provided the business managers

do all the way.

For example, if they decide it ought to cost 8 cents instead of 6 cents to deliver a letter from Hamlin to Anson in 24 hours, and it turns out it takes 48, shouldn't the sender be entitled to a rebate for the delay in transit? Business is business, isn't it?

Or if they raise the rate on magazines, shouldn't they bind themselves to get a copy of Newsweeks to a reader before one of its Periscope predictions is proven by the turn of events to be inaccurate? Shouldn't Time magazine have a chance to get a reader before somebody it interviewed has a chance to point out he was misquoted?

If they shut down more and more small post offices because they find they don't make a profit, what's going to happen if they find out the post office in Abilene is losing money? Can't be letting sentiment get in the way of tough business decisions.

It seems to me they have a hard row to hoe, but if they succeed, will there be a move on to put the other government services on a paying basis?

How about the Weather Bureau? Why don't they make it pay and charge for forecasts instead of giving them away free? With a rebate of course when they miss.

How about highways? The courts? The police? The army? Congress?

If they can get all these on a paying basis, that wouldn't leave anything in the red except maybe the railroads and the airlines and the space program and marriage licenses, and we could get taxes down to practically nothing.

Yours faithfully,
J. A.

Longtime County Resident Dies At Home Thursday

Thomas W. Henderson, 63, longtime resident of Jones County, died at his home west of Noodle Thursday at 5:55 a.m. of an apparent heart attack.

AUSTIN, — In a week of major financial flurry, the House passed a \$492.5 million tax bill and an \$80 million college tuition hike, while the Senate approved a \$185 million college building bond plan.

Here's the breakdown on the tax bill:

An increase in the sales tax rate of 3.25 to 4 per cent, \$279.8 million.

Increase in the auto sales tax rate from 3 to 4 per cent, \$69.75 million.

Increase in the hotel occupancy tax from 3 to 4 per cent, \$6.3 million.

A \$1 tax on transfer of corporate securities, \$10 million.

A 10 per cent levy on entertainment admissions, \$26.6 million.

Increase in the corporation franchise tax rate from \$3.25 to \$3.75 per \$1,000 of assets, \$39.5 million.

A 5 cents per gallon tax on aviation jet fuel, \$50 million.

An increase in the tax on sand, gravel, shell and marl taken from submerged lands, \$10.5 million.

The House rejected amendments that would have taxed corporation net profits, timber, snuff and sales to government units.

Representatives approved a tuition increase from \$50 a semester to \$7 per semester hour — or \$105 a semester for a full 15-hour load.

Also included is a \$47 per semester hour charge on out-of-state students, or about \$700 per semester.

Both bills now go to the Senate, where Lt. Gov. Ben Barnes has promised extended hearings. First, however, the Senate — unlike the House — proposes to total its spending proposals to see just how much revenue is required to balance the budget.

Senate voted 21-7 for the House-passed bill to provide tuition-backed revenue bond financing of new higher education facilities in San Antonio, Dallas, Odessa, Houston, Lubbock and El Paso.

COURTS SPEAK — Texas Supreme Court refused to review a Sunday closing law case involving Cook's discount store at Bryan, thus again affirming Texas' blue law.

A woman who burned her finger due to a defective safety glove at the Dallas Texas Instruments plant nine years ago got a new trial in her damage suit for more than \$20,000.

U. S. Supreme Court, in a case of interest to Texas, held unanimously that highways constructed with federal funds cannot cut through public parks except in "the most unusual situations."

U. S. Supreme Court in a Houston case held that an indigent cannot be jailed to work out traffic fines for non-jailable offenses.

Court of Criminal Appeals held two boys sentenced for murder in Edinburg were placed in double jeopardy because of their age.

REDISTRICTING ROW LOOMS — Lawmakers, armed with new census tract maps, are tuning up for some early showdowns on congressional and legislative redistricting.

Sen. J. P. Word of Meridian introduced caption bills for his redistricting committee to start work on within the next week. Word said he plans no out-of-Austin public hearings like those being conducted by the House redistricting committee headed by Rep. Delwin Jones of Lubbock.

Forty-six of 52 big-city House members served notice on Jones they don't like his preliminary sketches of new

district lines. They interpret Jones' early efforts as designed to safe-guard rural congressmen.

Under a fair plan, they said, Harris County should include four congressional districts, Dallas County three, and Bexar and Tarrant counties two each. Instead of the 11 districts to which the metropolitan counties are entitled, they argued, Jones has indicated only seven districts would be dominated by the bigger cities.

LOCAL SCHOOL COSTS SET — Local school district share of the state's public education system cost in 1971-72 will be \$245.1 million.

State Board of Education set the local fund assignment for the next school year at a meeting here last week. (March 11).

Assignment includes 20 per cent of the foundation school program cost (\$215.1 million), plus another \$30 million in special credits earned by the districts during the past year.

Total cost — both state and local share — of the foundation school program for the 1970-71 school year is estimated at \$1,075,634,247 (billion).

Professional and teacher aide salaries this year will cost \$926.7 million; maintenance and operation of schools, \$76.8 million; transportation, \$26.8 million; Texas Education Agency administration, \$2,093,000 and special programs, \$7,082,000.

Many local school districts pay for additional services with local tax money and support salaries for their teachers higher than the minimum scale.

CRIME INCREASING STILL — Major crime increased in 1970 by 5.1 per cent, according to a report by Col. Wilson E. Speir, director of the Texas Department of Public Safety.

Although Texas' crime trend remained up, Speir noted, the rate of increase was down from 19.9 per cent gain for the first six months of last year and compares with almost 16 per cent for

Gil Lain to Take Part In Indiana Revivals Apr. 9-19

ABILENE — For the sixth consecutive year, Hardin-Simmons University students will be participating in student-led revivals in Indiana, April 9-19. Approximately 110 students have chosen to spend their Easter holidays working in over 25 churches, ranging in size from a four-member mission to an 800-member American Baptist Church.

The teams, composed of a preacher, song leader, pianist, and fellowship director, were appointed after each applicant was interviewed by a committee of students who had worked in Indiana revivals previously and Marshall Walker, director of religious activities.

Gil Lain, a sophomore from Hamlin, will be the preacher for the team to serve at the First Southern Baptist Church in Terre Haute.

all of 1969.

DPS director said there was a major crime every one and-one-quarter minutes.

Crime rate jumped 4.8 per cent in cities and 7.9 per cent in rural areas. There was some decline in the crime rate (5.9 per cent) for cities in the 50,000-100,000 population bracket. It was up 25.2 per cent in 10,000-25,000 cities. In big cities, the rate increase was just 2.8 per cent. Crime clearance rate rose slightly.

BETTER BUDGETING URGED — In a new report, the Texas Research League recommended better budgeting and money management for the state.

Recommendations include a proposal that the governor become chairman of a new State Budget Commission which would include Legislative Budget Board members. A single staff would serve the Commission, and only a single budget would be presented the Legislature. System envisions "budget execution" as part of the money management process.

Grand Jury Recommendation—

Commissioners Not Expected To Expand Sheriff's Department

By Bob Craig
A recent session of a Jones County Grand Jury recommended the purchase of two additional motor vehicles and the employment of two more full time deputies for the sheriff's department but county observers offer little hope that the Jones County Commissioners will heed this request.

One of the commissioners, Thomas H. Boyd, commissioner of Precinct 2, issued a statement this past week to The Stamford American in Stamford indicating that he opposed such an increase for the sheriff's department claiming it would take a 20 percent increase in taxes.

This is the second time for a Grand Jury to make such a recommendation, the first coming last spring which resulted in no action on the part of the Commissioner's Court.

When Woodrow Simmons campaigned for sheriff, one of his pledges was that the north part of the county would be given a full time

deputy. And for a while he had one in Stamford but the man was not furnished a car and later resigned.

Commissioner Boyd takes the view in his statement that the three larger cities in the county have adequate law enforcement agencies and that there is no need for more help in the sheriff's department.

The question apparently boils down to whether or not the sheriff's department has any obligation to the people living within corporate city limits. The commissioner's apparently feel that they do not while the people in the cities feel otherwise.

Among those feeling this way is Stamford American Publisher Roy M. Craig, who states in his column, "Tom (Boyd) would have you believe that the sheriff has no obligation to the citizens of Stamford. He may be right but some of us Stamford tax payers would like to know what the county is giving us for our tax money."

One of the problems being faced by the cities is the increasing cost of law enforcement with the high cost of living, the state requirements in regard to schooling and the high cost of equipment.

Adding to the problem is the fact that the county receives most of the fine money generated by the cities' law enforcement officers except for minor traffic violations and the like.

Because of this most city officials over the county would like to see the county carry a larger share of the burden of law enforcement.

One possible answer to the problem might be an experiment being conducted in

Hardeman County by the North Regional Planning Commission. The pilot project would call for the consolidation of law enforcement agencies within the county with Quanah, the main city in the county, no longer having its own department but sharing in the services with the county government.

The project will receive federal grants to get started and its backers claim it would provide better services at less cost to the taxpayers.

Because it affects all of the people of Jones County the full text of Commissioner Boyd's statement is printed below:

"In reply to the recommendations of the Grand Jury about increasing the Sheriff's department, we feel that more facts should be brought

to your attention."

"As far as law enforcement officers we have six police, including the chief, one liquor control officer, several narcotic agents, and one Justice-of-the Peace in Stamford."

"In Anson and also in Hamlin there are city police forces and other enforcement officers who do a good job of law enforcement within each city's limits, where we have the highest concentration of population of law breaking. The sheriff's deputies are not needed in the town, nor on the highways, and in this day of easy mobility, five men seem adequate for the county itself."

"In the county we have four highway patrolmen, one Texas Ranger, two more justice-of-the-peace and the sheriff's department, which is composed of the sheriff,

four deputies, and two radio operators."

"This sheriff's department has three automobiles: 2 Buicks and 1 Plymouth. We are spending \$46,000.00 per year on this Department. We feel that we now have the best law enforcement officers in our cities and county that we have ever had. They are doing a good job."

"If we do as the grand jury suggests, the increase in your taxes will be about 20 percent."

"We need more taxpayers to help carry the burden of taxation. But, we the commissioner's court having been elected by the voters of this county, feel it is our duty to you to keep taxes as low as possible. We feel that no taxpayer would welcome higher county taxes, particularly during a possible drought."

The S. C. Ballews the W. B. Cottens and the Jack Pembertons returned from a three weeks' stay in Big Bass Resort in Sapata. They reported a good trip and said the fishing was good in the Falcon. They also went into Mexico.

News deadline is noon Tues.

The near-end of school-rush is upon us. It seems that all of the school activities are having a final "gasp" at the school year. The television ratings will undoubtedly go down as a result of a decline in television viewing by busy Hamlin High School students.

The Hamlin High School Concert Band performed in contest Saturday in Sweetwater. As a result of several problems, the band received a II in concert but received a I in sightreading. The judges had many high praises for the band, and as a result of their constructive criticism, the band is sure to do a good job at UIL.

Various members of the band will participate in the UIL Solo and Ensemble Contest at Hardin-Simmons Uni-

versity Saturday.

HHS
Several girls, accompanied by Mrs. Carter and Mrs. Murrell, attended the FHA Convention in Stephenville Saturday. The girls attending the convention were Latrese Williams, Dana Knox, Debbie Elmore, Terrie Gregory, Diane Samples, Pam Peace, and Sharee Reese. Latrese, an FHA State Officer, helped preside over the convention. Dana Knox was elected as Area Historian. Diane Samples was named to the Area Choir, and Terrie Gregory received the honor of membership in the State Choir. Also, Mrs. Carter received an honorary membership to FHA.

The Senior Class will present "The Defiance of David Charles," a three-act play by Hal O'Neil, April 2. Tickets will soon be available and may be purchased from any senior.

WTU to Sponsor Student To Science Symposium

West Texas Utilities Company will sponsor an outstanding student from Hamlin High School to the 11th Texas Nuclear Science Symposium for High Schools to be held in Austin June 7-11, according to Local Manager Ned Moore.

Held on the campus of the University of Texas at Austin, the four-day symposium is co-sponsored by the university and the Texas Atomic Energy Research Foundation. West Texas Utilities Company and nine other investor-owned electric utility companies in Texas compose the foundation. The foundation

is supporting research at the university in seeking a future source of energy supply for generation of electric power by controlling nuclear fusion reactions.

A number of noted speakers from science, industry and education will address the delegates to the symposium. Two afternoons will be spent touring the science laboratories at the university.

The company also will sponsor a teacher to accompany the student. Both the student and teacher will be selected by the high school. Some 550 delegates from throughout Texas will attend.

"This is an unusual opportunity for those attending to participate in a most educational, interesting and eventful experience," Mr. Moore said. "We are pleased that we can make it available to each of them."

Dana Knox Elected Historian At Area FHA Meeting Fri.

Dana Knox, Hamlin High School sophomore and daughter of Mr. and Mrs. S. L. Knox, was elected Area 4 FHA historian for 1971-72 during the House of Delegates meeting on the Tarleton State College campus in Stephenville Friday night.

Pam Peace represented the Hamlin Chapter as voting delegate.

Terrie Gregory was one of eleven selected to represent Area 4 in the State FHA chorus. Terrie and Diane Samples sang in the Area 4 chorus Saturday morning during the FHA meeting.

Latrese Williams, State FHA third vice-president was one of the afternoon speakers. Mrs. Joe Wayne Carter, along with Mr. C. J. Davidson, Fort Worth, and Mr. Harry Holt, Abilene, received Honorary Memberships in the Area 4 Future Homemakers organization.

Others attending were Debbie Elmore, Sharee Reese, Mrs. Carl Murrell, Mrs. S. L. Knox, Mrs. Donley Williams, and Mr. and Mrs. Ray Williams.

Jerry Adkison Attends WTU Appliance School

Jerry Adkison, West Texas Utilities Company appliance serviceman in Hamlin, was in Abilene last week attending a WTU appliance service training school.

The purpose of the school was to train the servicemen in the installation and maintenance of new appliances and to add to his knowledge of the repair of other appliances.

These service training schools are conducted each year by West Texas Utilities Company in each of the Company's seven district offices.

Four Local Youth Named 'Outstanding Teenagers'

Four Hamlin High School students have been selected as Outstanding Teenagers of America for 1971, according to B. V. Newberry, principal.

Selection for the Outstanding Teenagers awards program automatically qualifies these students for further state and national scholarships and honors. Local nominees are: Darrell Craig, Charles Sellers, Debra Elmore, and Toni Casey.

Nominated by their principal, the Outstanding Teenagers of America are chosen the country for excellence in from individual schools across community service and academic achievement. The lo-

cal students will now vie for the Outstanding Teenager of the Year Trophy to be presented by the state's governor. Similar trophies will be presented to winners in other states. The state winners are selected by the Outstanding Teenager Awards Selection Committee, in cooperation with the Board of Advisors.

From among the 50 state winners, one boy and one girl will be chosen for the national scholarship prize of \$1,000 to attend the college or university of their choice.

In recognizing the special talents of these Outstanding Teenagers, Astronaut Neil Armstrong said these youths "have the ability to face the difficult problems of our times and the obligation to accept the challenge."

These Outstanding Teenagers also have the "opportunity to become great national leaders and doers," President Nixon said in a congratulatory message to the nominees.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Since our comments in this column two weeks ago in regard to the request by the Grand Jury for an investigation into the possibility of our law enforcement officers being curtailed in their efforts to enforce the law, I have received a number of expressions of favor and at the same time a few who disagreed with me.

Since that time I have been assured by some of the members of the council that we do not have a problem here and the whole matter has gotten out of hand. I certainly hope that this is the case.

It may well be that I have caused some unjust criticism of the members on the city council and if this is the case then I apologize to each of them.

I suspect that the whole problem boils down to the question of how much law enforcement does the public want? And this is not an easy question to answer. I for one, believe that the laws are passed for our own protection and should be enforced with the chips falling where they may, but at the same time I have many friends who believe that we should be selective in enforcing minor traffic laws.

I for one have no idea as to what the Grand Jury investigation will come up with or even if there will be one. But I do know that if they find anything wrong it should not be laid at the feet of the individual councilmen but should be borne by the citizens as a whole. The councilmen are good, honest citizens trying to serve their community with the best of their ability and for this they need our support. If we have a problem, and I hope we don't, it is our problem not just theirs.

Because of our convictions in regard to law enforcement I feel that we do have a problem here, but it is probably not the one brought up by the Grand Jury. It is one created by this question of how much law enforcement do we want and this is a problem everywhere, especially in the smaller towns where every one knows everyone else.

It is not a new problem as it has been around a long time and will likely be with us for a long time to come. The problem is one made up of small things such as letting our kids drive before they are old enough to have a license, driving too fast on our city streets, failing to stop for stop signs, etc.

Maybe I am wrong in taking this attitude I take in regard to the enforcement of these so called minor laws but I feel that there are at least three good reasons for this conviction.

One is that we will never stop the needless deaths on our streets and highways until the public is forced to obey the law or pay the consequences.

The second is that I find it hard to listen to people complain about civil rights, hippies, and young people breaking laws because they do not believe in them, while at the same time the people doing the complaining are breaking other laws themselves.

The third reason is one that brings in the modern matter of generation gap and the establishment. How can you let a kid drive before he is of legal age and see his parents and friends break traffic laws and expect him or her to show proper respect for law and order when he gets older. While as an adult you may be able to know the difference between the apparently unimportant laws and the more serious ones but can your youngsters?

While I cannot prove it, I suspect that this attitude on the part of the parents is what is creating our drug problem today. The kids do not feel that our drug laws are right or fair and therefore they feel just because drugs are against the law this is not a good enough reason to leave them alone.

By Outgoing President—

More Workers Sought To Help Build Hamlin

Mickey Nunley, speaker for the Hamlin Board of Community Development Banquet, pulled a switch here Friday evening as he talked on patriotism instead of industrial development as expected. But the speaker tied the two topics together before he reached the conclusion.

Barry Moore, outgoing president of the Hamlin BCD, introduced the officers for 1971 and gave a brief president's report on the BCD. In his report Moore pointed out to the audience that Hamlin is a growing community that faces problems like all communities and urged those present to "correct what we can correct."

He noted that we have

people that care about their town, but we need more workers — not just suggestions. He urged those present to stand behind those working to help build our community.

Moore noted that one of the main problems facing Hamlin is that "we do not have adequate funds to do the things we need to do. But, he added, "it is time for us to do what we can instead of waiting for someone else to do something."

New officers introduced were Jack Willingham, first vice president; Raymond Scifres, second vice president; and Donald Young, treasurer. Incoming president John Scarborough was unable to attend the banquet.

Willingham presented Moore a plaque in appreciation of his work.

In making his switch in topics, Nunley told the audience that one of his favorite topics is industrial development, but he said that another subject he is concerned with is patriotism and what's happening in the United States today.

Nunley said he is disgusted with recent events as the Kent State incident and with people such as Angela Davis, the black University of California at Los Angeles professor who was fired for being a professed communist.

"I'm looking toward the day when we say we've had it with the Angela Davises and the likes of Kent State and the one's who will spit at and burn the flag," he said.

Nunley said to him patriotism is "an inner conviction that prompts us to stand up and say I am an American."

But Nunley also noted that, "patriotism can be killed by those who neglect it as well as by those who attack it."

He told the audience that small towns are being phased out and said that "if we in West Texas don't make a move, there won't be any place left under 10,000 to 12,000 where you can raise a family."

One of the things that most concerned Nunley, he said, is "the lack of leadership in communities. Every community I know of in West Texas needs leadership . . . and goals."

"Wouldn't it be great to join hands and work together?" he asked, but then said, there are "some in every community who will not lift a finger, but will try to tell you what you are doing wrong."

He concluded with the statement that, "if you are not part of the solution, you are part of the problem."

Outgoing officers of the BCD who were introduced at the banquet included Moore, president; John Scarborough, first vice president; Charles Hilburn, second vice president; and Cliff Reynolds Jr., treasurer.

The Rev. Howard Jones, pastor of First Baptist Church, served as master of ceremonies and introduced the out of town visitors from Aspermont, Anson, Washington, D. C., Stamford, McCaulley, Sylvester and Abilene.

Decorations for the banquet held in the high school cafeteria were furnished by the Hamlin Garden Club.

Organ dinner music was provided by Mayhall Music Co.

Film Presentation— B&PW Club Members Urged To Help Clean Up Hamlin

Jerry Smith and Ellis West, members of the community action committee of the Board of Community Development, presented colored slides to members of the Hamlin Business and Professional Women's Club showing scenes in and around Hamlin.

The presentation pointed out how Hamlin looks to the visitor, the prospective citizen and the potential investor.

While showing the slides, the men pointed out the problem of abandoned cars, high grass and weeds, heavy mesquite infestation, and other fire, health and safety hazards.

They said, "We do not know the answer to the problem but it is the hope of the committee that we can interest citizens in cleaning up our town."

They asked the help of the B & PW Club members as a group and as individuals to do what they could to create more interest in making Hamlin a more attractive community. They commended their recent project of decorating a window in a vacant building downtown.

Also presented were scenes showing the new airport, remodeled buildings, major industries and other assets of the town. Several buildings which are now vacant but could possibly be used for prospective industry were shown.

The meeting, a covered dish dinner, was held in the home of Mrs. Luther Haught. Assisting her were Mrs. Audrey Hodnett, Mrs. E. W. Ueckert and Mrs. Kenneth Riddle, members of the program committee.

Mrs. Earl Brown, president, presided and introduced

guests which included Mrs. Donald Young, Mrs. Joe Hudspeth, Mrs. Horace Driver, Mrs. Webb of McCaulley and Mrs. Bob Craig.

also holds the M. A. and Ph-

University of America, Wash-

jored in the field of history.

Sister More presents one of
the most interesting and
thought provoking programs
on agriculture and it's many
problems, that has ever been
delivered anywhere by any-
one. The fact that she has
been asked to address farm
groups in 27 states and four
Canadian Provinces in the
past few years, speaks will
of her acceptability by rural
people everywhere.

"We feel most fortunate
that Sister More's schedule
has permitted her to be with
us for our Annual Meeting.
We hope that every member
of SEC will make every ef-
fort to attend this year's
meeting. We also wish to em-
phasize that friends of S-

America the Beautiful...

From the time that Columbus dis-
covered America... men have
thought of this country as some-
thing special. It was here that
Ponce de Leon sought the Foun-
tain of Youth, and men have long
admired America's majestic
mountains and beautiful valleys.
However, the real beauty lies not
in the land, but in the people. The
people came... seeking a land
where they could worship God in
freedom, and under God devel-
oped a kind and loving spirit. This
is what makes America beautiful.

Attend church regularly... help
keep America beautiful.

The Church is God's appointed agency in this world for spreading the knowledge of His love
for man and of His demand for man to respond to that love by loving his neighbor. Without
this grounding in the love of God, no government or society or way of life will long
persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even
from a selfish point of view, one should support the Church for the sake of the welfare
of himself and his family. Beyond that, however, every person should uphold and par-
ticipate in the Church because it tells the truth about man's life, death and destiny; the
truth which alone will set him free to live as a child of God.

Census Bureau Issues Breakdown On County Population

Jones County's official population in the 1970 census was 16,106, down 16.5 percent from the 1960 figure of 19,299, the bureau of the census Department of Commerce, reports.

The official population of the state was 11,196,730, up 16.9 percent from the 1960 population count, which was 9,579,677.

The 1970 census counted 15,124 white persons in Jones County, 93.9 percent of the total; 923 negroes, and 59 persons of other races. In 1960, 94.2 percent of the population was white.

The census showed 1,102 children under 5 years; 3,791 in ages 5 through 17; 8,335 people 18 through 64; and 2,878 who were 65 and older. The population 14 years and over included 8,521 married people, 1,381 who were widowed, 275 divorced, and 2,286 never married.

Jones County's 1970 population was classified as 66.8 percent urban, and 33.2 percent rural.

There were 5,693 households, with 15,870 persons, including 1,189 one-person households. In addition 236 persons were living in group quarters.

The 1970 census counted County, 4,183 of them occupied 6,673 housing units in Jones County.

Among year round dwelling units there were 6,259 single family houses, 344 housing units in multi-unit buildings, and 61 mobile homes or trailers. The percentage of occupied units with more than one person per room was 8.6, compared with 14.2 in 1960. Of all the occupied housing units, 5,260 had piped water, toilet, and bath, while 433 lacked some or all plumbing.

The median value of owner occupied houses in Jones County was \$6,700, compared with \$5,800 in 1960. The median rent paid by tenants in 1970 was \$42 per month, compared with \$53 in 1960. Half were over and half below the median figures.

LETTERS TO EDITOR

Writer Withdraws From Council Race

To the Editor of the Hamlin Herald:

It is public knowledge that a few days ago, I filed for a seat in the upcoming election for City Councilman. I will take this opportunity to make a public announcement that I am now withdrawing from the race for two reasons:

1. By virtue of a one-do-

lar a year salary, I am an employee of the city; thusly, I am ineligible.

2. I believe that more can be done for our small community through other endeavors.

The first endeavor being taken in context from the editorial in the Hamlin Herald — (quote) "It is important that the people elected to represent you know that you support them in their efforts to make Hamlin a better place to live." (unquote)

I think that the U. S. citizens' right to dissent has been wholeheartedly abused. Why don't we, as citizens of Hamlin, start a new trend; that of support. One of the reasons that we are a small community is that we seem to think small. The people that we have, and will elect as councilmen are the very essence and backbone of our small community. They are the ones who attend monthly and sometimes bimonthly meetings, meet on the street with our local citizens, spend hours on the phone with them listening to their problems and sometimes trivial complaints, then making the decisions which will be right for our city.

They have little money, and even less support from us as citizens of the community than does a city with ten times the tax revenues. We leave to them the responsibilities of providing city facilities; i.e., sewers, maintenance, growth and development, police protection, and many others. We place the burden on them of hiring these people to administer and carry out these civic duties. If the councilmen have the right to hire these people, can we, as citizens, refuse them the right to direct and fire these same city employees? I think not.

Our present greatest controversy would seem to pertain to law and order. I maintain that if the law is enforced TO THE LETTER, then you and I are in violation of it at least once a day. I personally would like worthy items originating from to see publications and news-Hamlin referring to us as a progressive, forward-looking, growing young city, rather than the too frequent publicity of our police department. It would seem that EACH time a reference is made to the city of Hamlin on one of our local radio or t. v. sta-

by owners, 1,510 occupied by tenants, and 980 vacant. These included vacant units for seasonal use. The proportion occupied by owners in 1970 was 62.7 percent, compared with 54.5 percent in 1960.

Among year round dwelling units there were 6,259 single family houses, 344 housing units in multi-unit buildings, and 61 mobile homes or trailers. The percentage of occupied units with more than one person per room was 8.6, compared with 14.2 in 1960. Of all the occupied housing

tions, it refers to our police force rather than our future farmers, our new high school, our Board of Community Development, our small (and dying) industries, or to a citizen of outstanding merit. I personally do not think that this is the proper kind of advertisement for a community of our size. We do not need it.

In summation, let's vote. And after the votes are counted, let EACH voter support the elected. Just as I am ineligible as a city employee to supervise and run our city, so are ALL other city employees bound by the same rules, laws, and decisions handed down by our elected officials. These city employees are employees by monetary compensation. If they cannot or will not comply, then let's find some who will.

Missionaries From New Guinea Due

Rev. and Mrs. Wallace White, missionaries to the Island of New Guinea, will be in the Hamlin Church of the Nazarene Saturday at 7:30 p.m. Everyone in the community is given a special invitation to attend, says the pastor, Rev. Marshall Stewart.

Rev. White has been field superintendent of the expanding Nazarene work in New Guinea for eight years. He oversees all the organized churches as well as giving supervision to the hospital, Clinical, and school work in the island. He and his family are stationed at the Nazarene headquarters in Kudjip.

Rev. White's appeal will have a special emphasis on the youth, Rev. Stewart said, and he will show slides of the work on his field.

Churches from Rotan, Snyder, Abilene, Sweetwater and Buffalo Gap are expected to participate in the missionary service.

A salad and dessert supper will be held at 5:30 p.m. Everyone is invited to bring a salad and dessert and join the congregation at the supper in Fellowship Hall.

Area Invited to Attend McMurtry Inauguration

ABILENE — Friends of McMurtry College in the Abilene area are invited to attend the inauguration of Dr. Thomas K. Kim as the college's eighth president, says Dr. Norton Jones, faculty chairman of arrangements.

Dr. Kim will be formally inaugurated at 10:30 a.m. on Saturday, March 13, in the new Civic Center Auditorium in downtown Abilene. This will be the climax of a slate of events beginning with dedication of McMurtry's newest building Friday.

The brand new Amy Graves Ryan Fine Arts Center will be dedicated in a ceremony at 3 p.m. March 12 just outside the new \$1 million-plus structure on the southeast corner of McMurtry campus.

The dedication of the Arts Center on Friday will also be followed by a reception inside the building honoring the Ryan Family.

Another event of the weekend will be first official public performance in the Arts Center Recital Hall at 8 p.m. Friday, March 12. Pianists Dale Dublin Prothro and Aurora Sterling Bolin, both of Wichita Falls, will play.

Of all the dignitaries and famous personages present, Dr. Thomas Kim will probably be most interested in three Californians flying in from San Francisco.

They are his three surviving brothers: Dr. Lawrence K. Kim, a San Francisco surgeon; Hugh K. Kim, an employee of American Airlines in San Francisco; Dr. Kenneth K. Kim, a captain in the U. S. Army Medical Corps.

The McMurtry president's family were taken from their home by North Korean invaders during the turmoil in their land in the 1950's. They were never traced and are presumed dead.

In the public eye other luminaries will naturally draw more attention.

Sen. John Tower and Rep. Omar Burleson will be on hand from the United States Congress. Eldon Mahon, United States Attorney for the Northern of Texas, will be here.

State Senator David Ratliff of Stamford, Rep. Grant Jones and Rep. Frank Calhoun, both of Abilene, and Rep. Delwin Jones of Lubbock, will be present from the Texas Legislature.

Among the many dignitar-

ies of the United Methodist Church will be Bishop Albie Carlton of the Northwest Texas and New Mexico Conferences and Bishop Kenneth Pope of the Fort Worth-Dallas area.

Proposed **CONSTITUTIONAL AMENDMENT**

NUMBER THREE ON THE BALLOT (SJR 5)

Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 51-a, of the Texas Constitution, be amended to read as follows:

"Section 51-a. The Legislature shall have the power, by General Laws, to provide, subject to limitations herein contained, and such other limitations, restrictions and regulations as may be deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and any other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and other services to or on behalf of:

"(1) Needy aged persons who are citizens of the United States or noncitizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years;

"(2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap, or a combination of physical and mental handicaps;

"(3) Needy blind persons;

"(4) Needy dependent children and the caretakers of such children.

"The Legislature may prescribe such other eligibility requirements for participation

in these programs as it deems appropriate.

"The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws making matching funds available to help such families and individuals attain or retain capability for independence or self-care, to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the total amount of State funds paid for assistance grants for needy dependent children and the caretakers of the children shall not exceed Fifty-Five Million Dollars (\$55,000,000) during any fiscal year.

"Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to the State for these purposes, then and in that event the

Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

"Nothing in this section shall be construed to amend, modify or repeal Section 81 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this State."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on May 18, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment removing the limitation on the total State appropriations for assistance grants for the needy aged, the needy disabled, and the needy blind, and setting a limitation on total State appropriations during any fiscal year for assistance grants for needy dependent children and the caretakers of such children."

Neinda Philosopher Comes Up With Program To Put Nearly Everything On A Paying Basis

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has some far-out ideas this week, but that's his responsibility, not ours.

Dear editor:

As I understand the plan to reorganize the postal system, according to an article I read last night in a newspaper somebody mailed me a couple of weeks ago and I received yesterday, the idea behind the move is to put the

post office department on a paying basis, managed by a commission of business experts.

They're going to cut out wasted effort and antiquated methods, mechanized and streamline the system, raise the rates right and left, and generally operate the thing like it was any other business designed to pay its own way.

I got to thinking about this and I guess it's all right, provided the business managers

so all the way.

For example, if they decide it ought to cost 8 cents instead of 6 cents to deliver a letter from Hamlin to Anson in 24 hours, and it turns out it takes 48, shouldn't the sender be entitled to a rebate for the delay in transit? Business is business, isn't it?

Or if they raise the rate on magazines, shouldn't they bind themselves to get a copy of Newsweeks to a reader before one of its Periscope predictions is proven by the turn of events to be inaccurate? Shouldn't Time magazine have a chance to get a reader before somebody it interviewed has a chance to point out he was misquoted?

If they shut down more and more small post offices because they find they don't make a profit, what's going to happen if they find out the post office in Abilene is losing money? Can't be letting sentiment get in the way of tough business decisions.

It seems to me they have a hard row to hoe, but if they succeed, will there be a move on to put the other government services on a paying basis?

How about the Weather Bureau? Why don't they make it pay and charge for forecasts instead of giving them away free? With a rebate of course when they miss.

How about highways? The courts? The police? The army? Congress?

If they can get all these on a paying basis, that wouldn't leave anything in the red except maybe the railroads and the airlines and the space program and marriage licenses, and we could get taxes down to practically nothing.

Yours faithfully,
J. A.

AUSTIN. — In a week of major financial flurry, the House passed a \$492.5 million tax bill and an \$80 million college tuition hike, while the Senate approved a \$185 million college building bond plan.

Here's the breakdown on the tax bill:

An increase in the sales tax rate of 3.25 to 4 per cent, \$279.8 million.

Increase in the auto sales tax rate from 3 to 4 per cent, \$69.75 million.

Increase in the hotel occupancy tax from 3 to 4 per cent, \$6.3 million.

A \$1 tax on transfer of corporate securities, \$10 million.

A 10 per cent levy on entertainment admissions, \$26.6 million.

Increase in the corporation franchise tax rate from \$3.25 to \$3.75 per \$1,000 of assets, \$39.5 million.

A 5 cents per gallon tax on aviation jet fuel, \$50 million.

An increase in the tax on sand, gravel, shell and marl taken from submerged lands, \$10.5 million.

The House rejected amendments that would have taxed corporation net profits, timber, snuff and sales to government units.

Representatives approved a tuition increase from \$50 a semester to \$7 per semester hour — or \$105 a semester for a full 15-hour load.

Also included is a \$47 per semester hour charge on out-of-state students, or about \$700 per semester.

Both bills now go to the Senate, where Lt. Gov. Ben Barnes has promised extended hearings. First, however, the Senate — unlike the House — proposes to total its spending proposals to see just how much revenue is required to balance the budget.

Senate voted 21-7 for the House-passed bill to provide tuition-backed revenue bond financing of new higher education facilities in San Antonio, Dallas, Odessa, Houston, Lubbock and El Paso.

COURTS SPEAK — Texas Supreme Court refused to review a Sunday closing law case involving Cook's discount store at Bryan, thus again affirming Texas' blue law.

A woman who burned her finger due to a defective safety glove at the Dallas Texas Instruments plant nine years ago got a new trial in her damage suit for more than \$20,000.

U. S. Supreme Court, in a case of interest to Texas, held unanimously that highways constructed with federal funds cannot cut through public parks except in "the most unusual situations."

U. S. Supreme Court in a Houston case held that an indigent cannot be jailed to work out traffic fines for non-ailable offenses.

Court of Criminal Appeals held two boys sentenced for murder in Edinburg were placed in double jeopardy because of their age.

REDISTRICTING ROW LOOMS — Lawmakers, armed with new census tract maps, are tuning up for some early showdowns on congressional and legislative redistricting.

Sen. J. P. Word of Meridian introduced caption bills for his redistricting committee to start work on within the next week. Word said he plans no out-of-Austin public hearings like those being conducted by the House redistricting committee headed by Rep. Delwin Jones of Lubbock.

Forty-six of 52 big-city House members served notice on Jones they don't like his preliminary sketches of new

district lines. They interpret Jones' early efforts as designed to safe-guard rural congressional.

Under a fair plan, they said, Harris County should include four congressional districts, Dallas County three, and Bexar and Tarrant counties two each. Instead of the 11 districts to which the metropolitan counties are entitled, they argued, Jones has indicated only seven districts would be dominated by the bigger cities.

LOCAL SCHOOL COSTS SET — Local school district share of the state's public education system cost in 1971-72 will be \$245.1 million.

State Board of Education set the local fund assignment for the next school year at a meeting here last week (March 1).

Assignment includes 20 per cent of the foundation school program cost (\$215.1 million), plus another \$30 million in special credits earned by the districts during the past year.

Total cost — both state and local share — of the foundation school program for the 1970-71 school year is estimated at \$1,075,634,247 (billion).

Professional and teacher aide salaries this year will cost \$926.7 million; maintenance and operation of schools, \$76.8 million; transportation, \$26.8 million; Texas Education Agency administration, \$2,093,000 and special programs, \$7,082,000.

Many local school districts pay for additional services with local tax money and support salaries for their teachers higher than the minimum scale.

CRIME INCREASING STILL — Major crime increased in 1970 by 5.1 per cent, according to a report by Col. Wilson E. Speir, director of the Texas Department of Public Safety.

Although Texas' crime trend remained up, Speir noted, the rate of increase was down from 19.9 per cent gain for the first six months of last year and compares with almost 16 per cent for

Gil Lain to Take Part In Indiana Revivals Apr. 9-19

ABILENE — For the sixth consecutive year, Hardin-Simmons University students will be participating in student-led revivals in Indiana, April 9-19. Approximately 110 students have chosen to spend their Easter holidays working in over 25 churches, ranging in size from a four-member mission to an 800-member American Baptist Church.

The teams, composed of a preacher, song leader, pianist, and fellowship director, were appointed after each applicant was interviewed by a committee of students who had worked in Indiana revivals previously and Marshall Walker, director of religious activities.

Gil Lain, a sophomore from Hamlin, will be the preacher for the team to serve at the First Southern Baptist Church in Terre Haute.

all of 1969.

DPS director said there was a major crime every one and-one-quarter minutes.

Crime rate jumped 4.8 per cent in cities and 7.9 per cent in rural areas. There was some decline in the crime rate (5.9 per cent) for cities in the 50,000-100,000 population bracket. It was up 25.2 per cent in 10,000-25,000 cities. In big cities, the rate increase was just 2.8 per cent. Crime clearance rate rose slightly.

BETTER BUDGETING URGED — In a new report, the Texas Research League recommended better budgeting and money management for the state.

Recommendations include a proposal that the governor become chairman of a new State Budget Commission which would include Legislative Budget Board members. A single staff would serve the Commission, and only a single budget would be presented the Legislature. System envisions "budget execution" as part of the money management process.

Grand Jury Recommendation—

Commissioners Not Expected To Expand Sheriff's Department

By Bob Craig

A recent session of a Jones County Grand Jury recommended the purchase of two additional motor vehicles and the employment of two more full time deputies for the sheriff's department but county observers offer little hope that the Jones County Commissioners will heed this request.

One of the commissioners, Thomas H. Boyd, commissioner of Precinct 2, issued a statement this past week to The Stamford American in Stamford indicating that he opposed such an increase for the sheriff's department claiming it would take a 20 percent increase in taxes.

This is the second time for a Grand Jury to make such a recommendation, the first coming last spring which resulted in no action on the part of the Commissioner's Court.

When Woodrow Simmons campaigned for sheriff, one of his pledges was that the north part of the county would be given a full time

deputy. And for a while he had one in Stamford but the man was not furnished a car and later resigned.

Commissioner Boyd takes the view in his statement that the three larger cities in the county have adequate law enforcement agencies and that there is no need for more help in the sheriff's department.

The question apparently boils down to whether or not the sheriff's department has any obligation to the people living within corporate city limits. The commissioner's apparently feel that they do not while the people in the cities feel otherwise.

Among those feeling this way is Stamford American Publisher Roy M. Craig, who states in his column, "Tom (Boyd) would have you believe that the sheriff has no obligation to the citizens of Stamford. He may be right but some of us Stamford tax payers would like to know what the county is giving us for our tax money."

One of the problems being faced by the cities is the increasing cost of law enforcement with the high cost of living, the state requirements in regard to schooling and the high cost of equipment. Adding to the problem is the fact that the county receives most of the fine money generated by the cities' law enforcement officers except for minor traffic violations and the like.

Because of this most city officials over the county would like to see the county carry a larger share of the burden of law enforcement.

One possible answer to the problem might be an experiment being conducted in

Hardeman County by the North Regional Planning Commission. The pilot project would call for the consolidation of law enforcement agencies within the county with Quanah, the main city in the county, no longer having its own department but sharing in the services with the county government.

The project will receive federal grants to get started

and its backers claim it would provide better services at less cost to the taxpayers.

Because it affects all of the people of Jones County the full text of Commissioner Boyd's statement is printed below:

"In reply to the recommendations of the Grand Jury about increasing the Sheriff's department, we feel that more facts should be brought

to your attention."

"As far as law enforcement officers we have six police, including the chief, one liquor control officer, several narcotic agents, and one Justice-of-the Peace in Stamford."

"In Anson and also in Hamlin there are city police forces and other enforcement officers who do a good job of law enforcement within each city's limits, where we have the highest concentration of population of law breaking. The sheriff's deputies are not needed in the town, nor on the highways, and in this day of easy mobility, five men seem adequate for the county itself."

"In the county we have four highway patrolmen, one Texas Ranger, two more justice-of-the-peace and the sheriff's department, which is composed of the sheriff,

four deputies, and two radio operators."

"This sheriff's department has three automobiles: 2 Buicks and 1 Plymouth. We are spending \$46,000.00 per year on this Department. We feel that we now have the best law enforcement officers in our cities and county that we have ever had. They are doing a good job."

"If we do as the grand jury suggests, the increase in your taxes will be about 20 percent."

"We need more taxpayers to help carry the burden of taxation. But, we the commissioners' court having been elected by the voters of this county, feel it is our duty to you to keep taxes as low as possible. We feel that no taxpayer would welcome higher county taxes, particularly during a possible drought."

"If we are wrong about the wishes of the voters concerning a tax increase, we would appreciate being notified. After all, we are trying to represent and carry out the wishes of the majority of the taxpayers of this County."

(Signed)

The near-end of school-rush is upon us. It seems that all of the school activities are having a final "gasp" at the school year. The television ratings will undoubtedly go down as a result of a decline in television viewing by busy Hamlin High School students.

HHS
The Hamlin High School Concert Band performed in concert Saturday in Sweetwater. As a result of several problems, the band received a II in concert but received a I in sightreading. The judges had many high praises for the band, and as a result of their constructive criticism, the band is sure to do a good job at UIL.

HHS
Various members of the band will participate in the UIL Solo and Ensemble Contest at Hardin-Simmons Uni-

versity Saturday.

Four Local Youth Named 'Outstanding Teenagers'

Four Hamlin High School students have been selected as Outstanding Teenagers of America for 1971, according to B. V. Newberry, principal. Selection for the Outstanding Teenagers awards program automatically qualifies these students for further state and national scholarships and honors. Local nominees are: Darrell Craig, Charles Sellers, Debra Elmore, and Toni Casey.

Nominated by their principal, the Outstanding Teenagers of America are chosen from individual schools across community service and academic achievement. The lo-

cal students will now vie for the Outstanding Teenager of the Year Trophy to be presented by the state's governor. Similar trophies will be presented to winners in other states. The state winners are selected by the Outstanding Teenager Awards Selection Committee, in cooperation with the Board of Advisors.

From among the 50 state winners, one boy and one girl will be chosen for the national scholarship prize of \$1,000 to attend the college or university of their choice.

In recognizing the special talents of these Outstanding Teenagers, Astronaut Neil Armstrong said these youths "have the ability to face the difficult problems of our times and the obligation to accept the challenge."

These Outstanding Teenagers also have the "opportunity to become great national leaders and doers." President Nixon said in a congratulatory message to the nominees.

WTU to Sponsor Student To Science Symposium

West Texas Utilities Company will sponsor an outstanding student from Hamlin High School to the 11th Texas Nuclear Science Symposium for High Schools to be held in Austin June 7-11, according to Local Manager Ned Moore.

is supporting research at the university in seeking a future source of energy supply for generation of electric power by controlling nuclear fusion reactions.

A number of noted speakers from science, industry and education will address the delegates to the symposium. Two afternoons will be spent touring the science laboratories at the university.

The company also will sponsor a teacher to accompany the student. Both the student and teacher will be selected by the high school. Some 550 delegates from throughout Texas will attend.
